OBJECTIVE

Dedicated and skilled Front-End Developer with over 10 years of experience in building user-centric web applications. Proficient in modern front-end technologies and frameworks, with a strong focus on creating visually appealing and highly functional interfaces. Seeking opportunities to leverage expertise in HTML, CSS, jquery, and ReactJS to contribute to innovative projects and drive exceptional user experiences.

SKILLS

- Proficient in HTML5, CSS3, and jquery, with a deep understanding of responsive design principles
- Extensive experience with front-end frameworks such as ReactJS
- Strong command of UI/UX design principles and tools like Figma, CorelDraw and Photoshop
- Familiarity with version control systems such as Git for collaborative development
- Knowledge of front-end build tools and preprocessors such as Webpack, Sass
- Experience with RESTful APIs, JSON, and AJAX for seamless data integration
- Solid understanding of browser compatibility issues and performance optimization techniques
- Excellent problem-solving skills and attention to detail in implementing complex UI/UX designs

EXPERIENCE

UI DEVELOPMENT MANAGER eNova Software and Hardware Solutions, Coimbatore
October 2021- Present

- Developed responsive and interactive web interfaces using HTML5, CSS3, and JavaScript frameworks like Drupal, Codeigniter 3 & 4, ReactJS
- Collaborated closely with designers and backend developers to ensure seamless integration of front-end components with backend systems
- Implemented efficient data fetching and state management solutions using SQL
- Conducted thorough browser testing and optimization to ensure cross-browser compatibility and optimal performance
- Contributed to the development of internal UI component libraries and design systems to streamline development processes

TEAM LEADER DiacriTech IT & Service Private Ltd, Madurai
October 2015 - September 2021

- Led a team of designers in the creation of comprehensive brand identities, including logos, style guides, and visual assets
- Developed innovative design concepts and presented proposals to clients, resulting in increased satisfaction and repeat business
- Conducted client meetings to gather requirements, provide updates, and obtain feedback throughout the design process
- Mentored junior designers, providing guidance on design techniques, software proficiency, and project management skills
- Contributed creative ideas and solutions during brainstorming sessions

EXPERIENCE

E-pub Developer Geniies IT &Service Private Ltd, Coimbatore

December 2012 - September 2015

◆ Assisted in the conversion of print books and documents into digital formats using Adobe InDesign and Sigil

◆ Applied HTML and CSS styling to digital content to enhance readability and visual appeal

◆ Conducted quality assurance testing to ensure compatibility and functionality across various eReader devices and platforms

◆ Collaborated with editors and authors to address formatting and layout requirements for digital publication

MAJOR PROJECTS HANDLED

Project : Comprehensive System Development for SIPCOT

Description: Led the UI/UX development for a comprehensive system designed for the SIPCOT. The application's scalability to handle 5000 concurrent logins ensured adaptability to growing demands.

Technologies used: HTML5, CSS, jQuery, Ajax, Animation, Bootstrap, woocommerce

Role: Designed and implemented responsive user interfaces using HTML5 and CSS, ensuring optimal display across various devices and screen sizes, utilized jQuery and Ajax for dynamic content loading, and enhanced user interactions, improving overall usability and engagement.

Project: CRM

Description: Customer Relationship Management (CRM) – in-house project, CRM software consolidates customer information and documents into a single CRM database so business users can more easily access and manage it. CRM tools with marketing automation capabilities can automate repetitive tasks to enhance marketing efforts at different points in the life cycle.

Technologies used: PHP, MySQL, HTML , CSS, jQuery & Ajax

Role: Translate UI/UX designs into code using HTML, CSS, and JavaScript frameworks like CodeIgniter and Drupal. Ensure responsiveness and cross-browser compatibility for seamless user experiences across different devices and platforms.

Project: TNDOTE, Bharathiar University, Avinashilingam University

Description: Proficiently collaborated on diverse college websites utilizing Drupal and WordPress. Demonstrated expertise in crafting highly responsive websites through effective content management system (CMS) implementation.

Technologies used: Drupal, Wordpress, MySQL, HTML5, CSS, jQuery

Role: Design intuitive and responsive interactions that guide users through the digital product seamlessly. Define micro-interactions, animations, and transitions to enhance usability and provide feedback to users.
